

This image shows a full page of blank graph paper. The grid consists of small squares formed by thin gray lines. There are approximately 20 columns and 25 rows of squares. A thicker vertical line runs down the left side, about one-fifth of the way from the edge, creating a margin. A thicker horizontal line runs across the middle of the page, dividing it into two equal halves. These two lines intersect at the center of the grid. The overall appearance is that of a standard sheet of graph paper used for mathematics or science.
